FINAL PROGRAMME

Advancing the veterinary profession
in Eastern Europe

Pre-Conference Day - Wednesday, May 4, 2022

Workshop 1: Oral exam and nerve blocks

Venue: Veterinary Faculty, Anatomy lab, Gerbičeva 60, Ljubljana

Ana Nemec, DVM, PhD, Dipl. AVDC, Dipl. EVDC

GROUP 1		GROUP 2
9:00-10:00	Introduction lecture: Comprehensive oral examination and nerve blocks	14:00-15:00
10:00-11:00	Wetlab: Dental charts and charting	15:00-16:00
11:00-11:15	Coffee Break	16:00-16:15
11:15-12:15	Wetlab: Regional nerve blocks	16:15-17:15

Sponsored by:
Jørgen Kruuse A/S

In collaboration with:

Marmorna Hall		Povodni Mož Hall 1-3		Urška Hall 4	
8:30-9:15	Gastroenterology Silke Salavati Ileus in critically ill patients - a clinical approach to gastric motility				
9:20-10:05	Gastroenterology Silke Salavati IBD, CE, FRE, ARD - an update on acronyms and aetiologies in canine chronic gut conditions	9:00-9:45	Oncology Špela Bavčar Canine and Feline lymphomas – are they all the same? – Part 1	9:30-10:15	Dermatology Nao Hensel The Dermatologist's Toolbox: Practical Diagnostic Techniques
10:05-10:35	Coffee Break	9:50-10:35	Oncology Špela Bavčar Canine and Feline lymphomas – are they all the same? – Part 2		
10:35-11:20	Gastroenterology Silke Salavati The "curious" case of canine protein-losing enteropathy - do we need to step it up?	10:35-11:05	Coffee Break	10:20-11:05	Dermatology Nao Hensel Congenital and genetic skin diseases
11:25-12:10	Gastroenterology Silke Salavati Alternative treatment options for chronic enteropathies - something not only for refractory cases	11:05-11:50	Oncology Špela Bavčar Tyrosine Kinase Inhibitors and their use in veterinary medicine	11:05-11:35	Coffee Break
12:10-13:50	LUNCH 	11:55-12:40	Oncology Špela Bavčar "Chronic" treatments in veterinary oncology	11:35-12:20	Dermatology Nao Hensel Cutaneous Lupus Erythematosus in dogs
13:50-14:35	Neurology Elsa Beltran Anisocoria - When the problem is in the neurology system	12:40-14:20	LUNCH 	12:25-13:10	Dermatology Nao Hensel Unusual skin lesions associated with an internal disease
14:40-15:25	Neurology Elsa Beltran Blindness from a neurologist point of view	14:20-15:05	Nephrology Marc Dhumeaux Evidence based medicine in chronic kidney disease	13:10-14:50	LUNCH 
15:25-15:55	Coffee Break	15:10-15:55	Nephrology M. Dhumeaux How to recognise and treat acute kidney injury	14:50-15:35	Welfare&Behaviour Gonçalo da Graça Pereira What Cats would like us to know about their behaviour?
15:55-16:40	Neurology Elsa Beltran Strabismus, nystagmus and eyelid dysfunction	15:55-16:25	Coffee Break	15:40-16:25	Welfare&Behaviour Gonçalo da Graça Pereira Social Organization in Dogs: Is dominance real or a myth?
16:45-17:30	Neurology Elsa Beltran The vestibular patient, When should I be worried?	16:25-17:10	Nephrology Marc Dhumeaux Proteinuria in dogs and cats; does it really matter?	16:25-16:55	Coffee Break
		17:15-18:00	Nephrology M. Dhumeaux Case-based discussion in kidney disease	16:55-17:40	Welfare&Behaviour Gonçalo da Graça Pereira Environmental Enrichment: can living conditions lead to cat's behavioural problems?
				17:45-18:30	Welfare&Behaviour Gonçalo da Graça Pereira Is it simply a toilet or do details make the difference?

Marmorna Hall		Povodni Mož Hall 1-3		Urška Hall 4		Urška Hall 3	
8:30-9:15	Gastroenterology Silke Salavati Gastrointestinal endoscopy and histopathology - are we all wasting our time? 						
9:20-10:05	Gastroenterology Silke Salavati The good, the bad and the in-betweeners? - Case discussions in small animal gastroenterology 	9:00-9:45	Orthopedics Martin Owen Cranial cruciate ligament insufficiency – Options for surgical management	9:30-10:15	Dermatology Patrick Hensel Optimizing Topical Therapy for Various Skin Diseases		
10:05-10:35	Coffee Break	9:50-10:35	Orthopedics Martin Owen Cranial cruciate ligament rupture - When is a lateral suture as good as a TPLO?	10:20-11:05	Dermatology Patrick Hensel Claw diseases in dogs & cats		
10:35-11:20	Neurology Elsa Beltran Acute spinal cord lesions - From clinical signs to treatment	10:35-11:05	Coffee Break	11:05-11:35	Coffee Break	11:05-11:35	Coffee Break
11:25-12:10	Neurology Elsa Beltran Seizures versus movement disorders - How Can I recognise them?	11:05-11:50	Orthopedics Martin Owen Patellar luxation – Diagnosis and Surgical Management	11:35-12:20	Dermatology Patrick Hensel Food Allergy versus Food Intolerance	11:35-12:20	Ind. Symposium Gillian Dank Diagnosing Lumps in the Clinic: DIY Tips (and a peek at the future) 
12:10-13:50	LUNCH 	11:55-12:40	Orthopedics Martin Owen Patellar luxation – What can we learn from my mistakes?	12:25-13:10	Dermatology Patrick Hensel Non-pruritic, non-inflammatory alopecia		
13:50-14:35	Cardiology Mike Martin Understanding heart sounds 	12:40-14:20	LUNCH 	13:10-14:50	LUNCH 	13:10-14:50	LUNCH 
14:40-15:25	Cardiology Mike Martin Recognition and diagnosis of heart failure in dogs 	14:20-15:05	Emerg&Critical Care Chiara Valtolina Approach to the emergency patients: triage and major body system	14:50-15:35	Surgery Laura Owen Update on mast cell tumours	14:50-15:35	Ind. Symposium Irina Matricoti Adverse Food Reaction in Cats: from pathogenesis to the most recent findings of diagnosis by the elimination diet 
15:25-15:55	Coffee Break	15:10-15:55	Emerg&Critical Care Chiara Valtolina Fluid therapy for the emergency and critical care patient	15:40-16:25	Surgery Laura Owen Splenic masses	15:40-16:25	Ind. Symposium Gillian Dank Oncology breakthrough: a new path for canine Mast Cell Tumor treatment 
15:55-16:40	Cardiology Mike Martin Preclinical heart disease in cats and dogs 	15:55-16:25	Coffee Break	16:25-16:55	Coffee Break	16:25-16:55	Coffee Break
16:45-17:30	Cardiology Mike Martin Treatment of heart failure and current ACVIM guidelines 	16:25-17:10	Oncology Špela Bavčar Oncological emergencies	16:55-17:40	Surgery Laura Owen Oral tumours		
		17:15-18:00	Oncology Špela Bavčar Chemotherapy in practice	17:45-18:30	Surgery Laura Owen Surgical planning for oncological cases and simple reconstruction techniques		

Saturday, May 7, 2022

Marmorna Hall		Povodni Mož Hall 1-3		Urška Hall 4		Urška Hall 3	
8:30-9:15	Cardiology Mike Martin Introduction to understanding ECGs 						
		9:00-9:45	Emerg.&Critical Care Chiara Valtolina Monitoring post surgical critical patients			9:00-9:45	Nurse Stream Nicola Lakeman Nursing the IBD Patient
9:20-10:05	Cardiology Mike Martin Collapse and syncope in dogs: a night at the movies 			9:30-10:15	Orthopedics Martin Owen Hip Dysplasia – Diagnosis and Management		
10:05-10:35	Coffee Break	9:50-10:35	Emerg.&Critical Care Chiara Valtolina The how and when of blood transfusion			9:50-10:35	Nurse Stream Nicola Lakeman Triage and major body system assessment
10:35-11:20	Cardiology Mike Martin Interactive Case quiz: is this cardiac or respiratory disease? 	10:35-11:05	Coffee Break	10:20-11:05	Orthopedics Martin Owen Elbow Dysplasia- Diagnosis and Management	10:35-11:05	Coffee Break
		11:05-11:50	Emerg.&Critical Care Chiara Valtolina Approach to the multitrauma patient	11:05-11:35	Coffee Break	11:05-11:50	Nurse Stream Nicola Lakeman Feeding the inappetent animal
11:25-12:10	Cardiology Mike Martin Interventional cardiac procedures in small animals: an overview 			11:35-12:20	Orthopedics Martin Owen Common Calcaneal Tendon injury		
		11:55-12:40	Emerg.&Critical Care Chiara Valtolina Common mistakes in the ER			11:55-12:40	Nurse Stream Nicola Lakeman Nursing the GDV patient
12:10-13:50	LUNCH 	12:40-14:20	LUNCH 	12:25-13:10	Orthopedics Martin Owen Management of pelvic fractures		
				13:10-14:50	LUNCH 	12:40-14:20	LUNCH
13:50-14:35	Internal Medicine Alenka Hrovat Diagnosis and better understanding of diabetes in dogs and cats						
		14:20-15:05	Surgery Laura Owen Advanced reconstruction techniques	14:50-15:35	Endosurgery Antoine Adam Laparoscopy in small animal practice - top 5 most popular procedures	14:20-15:05	Nurse Stream Nicola Lakeman Anaesthetic emergencies
14:40-15:25	Internal Medicine Alenka Hrovat Management of simple and complicated cases of diabetes	15:10-15:55	Surgery Laura Owen Lower urinary tract obstruction – management of urolithiasis and urethral/prostatic tumours			15:10-15:55	Nurse Stream Nicola Lakeman Considerations for the C-section patient
15:25-15:55	Coffee Break	15:55-16:25	Coffee Break	15:40-16:25	Endosurgery Antoine Adam New technics in urinary diagnostic and endosurgery	15:55-16:25	Coffee Break
15:55-16:40	Internal Medicine Alenka Hrovat Monitoring of diabetes	16:25-17:10	Surgery Laura Owen Ureteral obstruction - includes surgical options, SUBs and stents	16:25-16:55	Coffee Break	16:25-17:10	Nurse Stream Nicola Lakeman The head trauma patient and feeding tubes
				16:55-17:40	Welfare&Behaviour Gonçalo da Graça Pereira Cognitive Dysfunction Syndrom: can we stop aging?		
16:45-17:30	Internal Medicine Alenka Hrovat Case solving	17:15-18:00	Surgery Laura Owen Urinary incontinence - update on urinary incontinence and management options available			17:15-18:00	Nurse Stream Nicola Lakeman Acute and chronic kidney injury
				17:45-18:30	Welfare&Behaviour Gonçalo da Graça Pereira "I'm getting bald! Is it stress?": feline psychogenic alopecia
